Always Blaming the Network

Some people treat the network kind of like the village idiot who can be blamed whenever anything goes wrong. Networks cause problems of their own, but they aren't the root of all evil:

» If your monitor displays only capital letters, it's probably because you pressed the Caps Lock key.

Don't blame the network.

» If you spill coffee on the keyboard, well, that's your fault.

Don't blame the network.

» If your toddler sticks Play-Doh in the USB ports, kids will be kids.

Don't blame the network.

Get the point?
